Friday and Saturday Sept. 26 & 27

CLARA KIMBALL YOUNG in "THE REASON WHY"

No raise in prices for any of these excellent programs

### THE SUGAR SHORTAGE

A letter dated September 4th from a prominent business man in Winnipeg to a friend in Alberta regarding the sugar shortage contains the following information:

"Ten thousand tons of sugar left Canada when it started in less than ten days; the boat with 5,000 tons for Turkey and the other with the same quantity for another European port. Now they have it that the Americans had bought up all the sugar we had."

Ten thousand tons is equal to

500,000 lbs. of sugar. The Canadian west when one out of the eight Canadian refineries ships 10,000 tons of sugar across the Atlantic, and one-half of it to Europe, has the capacity to supply the world.

In view of the difficulties that had to be overcome and the conditions that were made regarding the sale of 5,000 tons of sugar as if much harder to the west, one is tempted to enquire if the two and one-half times as much sent to Turkey could not have been used in preserving British Columbia fruit in the proportion of four pounds of fruit to one of sugar. If this had been permitted, to have Canadian sugar in such quantities without conditions, why should conditions be imposed on consumers in western Canada as to the sugar must, or must not make of the sugar that they buy and pay for?

It is now established that:

1. There was no world shortage of sugar.

2. There was no shipping shortage that prevented sugar from reaching Canada.

3. The imports of sugar to Canada were so much larger than usual that refiners anticipated a glut of sugar.

4. Since June 1st sugar has been shipped out of Canada to Europe by the thousand tons.

5. The sugar shortage in Canada only began after the shipments of sugar out of Canada had been stopped for some weeks.

6. The prompt agreement to supply a stated amount of sugar at a stated price and on conditions as to use in western Canada proved that the shortage was only a temporary one, not in fact—a shortage to be created by continued shipments to Europe; not a shortage existing because of the factors already made known.

The facts seem to be that the Canadian refiners purchased an overstock of sugar last winter or spring; no doubt in expectation of a brisk European demand on the part of the people.

Peace was delayed longer than they had expected and they became anxious to unload their surplus.

The United States refiners either had greater foresight or greater staying power than the Canadian refiners and made large purchases of sugar already held in stock.

Imports of sugar from the Canadian refiners were at a price far below the Canadian price but could not clear the Canadian refiners but give them any worthwhile profit.

Then peace was proclaimed. European trade was resumed, and the boom took place—so did our original expectation.

The United States refiners were in a position to take advantage of the situation by promptly reducing the price of sugar.

They also sold the surplus sugar they had brought from the Canadian refiners.

This accounts for the large shipments of sugar from Canadian ports, but does not in any degree account for the shortage to Canadian consumers.

Because it will be observed the Canadian refiners did not sell the speculative surplus to the United States refiners.

They certainly did not sell themselves short of Canadian domestic requirements with the result of getting a moderate if any advance on cost.

There is no doubt that when they saw that the American refiners were making large profits on the American market out of the very sugar that they the Canadian refiners had sold them, they could not help but want to get a share of the plum.

After the war European prices they had to shorten the supply of the Canadian consumer which caused the effect of bringing the Canadian sugar approximately up to the European price.

The more sugar they shipped to Europe the less they had for the Canadian consumer,

and the less the Canadian consumer could get the higher the price he would be willing to pay. And that is all there is to the "sugar shortage."

### "SYLVIA ON A SPREE"

Miss Wehlen in a rollicking, smart comedy of New York's famous life, a picture widely different from her recent production. The story is full and wholesome and abounds in stirring scenes, human interest, mirth provoking situations, action, adventure, and unexpected twists.

With a happy ending, "Sylvia on a Spree" is a charming and interesting gift for comedy at their best in it. It is one of this brilliant star's finest achievements on the stage, second to none.

The title fittingly suggests, it tells of the amusing and exciting experiences of a girl in quest of adventure. She is wealthy, she is clever and yearns for a glimpse of Broadway's celebrated cabaret world.

What opportunities are there for her to form one of the most entertaining stories ever written.

Miss Wehlen's exquisite beauty is declared by sculptors and painters to be unequalled.

She has the rare gift of being the best known woman on the stage or screen. The gowns and hats she wears in this picture are the latest creations from Paris' Rue de la Paix.

The hotel scenes were made in New York's fashionable Biltmore Hotel.

The broadway cabaret show is in full swing, featuring Hawaiian, Egyptian, girls in their native dances.

"The Ostrich Walk," is introduced as one of the performances.

Jefferson Market's famous "Night Court" is the setting for one of the big comedy scenes.

"Sylvia on a Spree" at the Rex Theatre Wednesday and Thursday, September 24 and 25.

### TRY OUR ICE CREAM

One taste is enough to convince you that it's useless to look elsewhere for its superior. Equals it may chance to have, but superiors, never. We have Ice Cream in all the most delicious flavorings packed in our freezers ready to serve by the pint, quart or gallon. How much can you use today?

J. B. BOESE License No. 9-2088

# Undue Profits Will Spell Ruin

Toronto.—Speaking at the press conference, Mr. O'Connor stated that the object of his visit was to ascertain if a fair profit could be set for other commodities in addition to sugar, the exceeding of which would mean "ruin" to Canada.

They wanted to bring down the prices in such cases, and then drive in rivets to keep them at that place. He pronounced that there was no doubt about the result, as there was a break of prices in sugar, which would mean ruin to the country. The object of the board was not only to bring down prices, but to hold them down.

A. C. Pyke, speaking for the wholesale grocers, said that his guild was quite willing to have inspection of its business. The members who co-operate with the board, he said, think we should not let Ross Dawson, the grocer's section of the Retail Merchants' Association.

"We are going to put the rivets in and say the prices cannot go any higher, but we may have to pay the price," said Mr. Pyke. "There is no good a man can pay less than 25 cents a dozen for eggs, for his business is going to be put out of business as the result. But unless prices are brought down quickly there will be a big break."

## Against Leaving Russia To Face

Col. John Ward Wants Britain of Real Masters of Evolution of Technology

London.—Col. John Ward, Labor member of the House of Commons, who has just returned from Russia, in an interview said that to desert the Russians who had rallied to our standard and will remain in Russia, to the benefit of every non-Bolshevik in Russia. "We went to Russia to prevent the Germans from transferring men to the western front," he declared. "Are we now to say to those who round us, 'You have served our turn, we are going. We wish you luck'?"

That, said Col. Ward, is unthinkable. It would be black treachery to leave men to face the enemies they have made for our safety without anything more substantial than our goodwill.

**British Monitor Was Raided**  
London.—It is declared in official quarters that it is the desire in the rear that a party of Sims Forces on a recent night had raided a British monitor off Cork, overpowered the skeleton crew and raised the vessel. The report, printed in the Daily News, said that the raiders had come with a quantity of rifles, munitions and valuable instruments.

**Kolchak on Offensive**  
Ottawa.—General commanders of the Russian army announced in the rear that a party of Sims Forces had, on a recent night, had raided a British monitor off Cork, overpowered the skeleton crew and raised the vessel. The report, printed in the Daily News, said that the raiders had come with a quantity of rifles, munitions and valuable instruments.

Melbourne.—Premier Hughes, addressing the nation to announce that the offensive was being pressed successfully along the Siberian front. The enemy is being driven back everywhere with severe losses, the announcement says, and has been compelled to abandon prisoners and important booty.

## Peace Treaty Is Signed By Austria

St. Germain.—Austria's signature to the peace treaty and the departure of Dr. Karl Renner, the Austrian Chancellor and head of the peace delegation, for Vienna to attend the conference, where the two governments have caused a feeling of relief in conference circles, where there has been great uneasiness lest the Vienna government should fall before the conclusion of the peace conference.

The Bulgarian treaty probably will be handed to the Bulgarian delegation on Sept. 12 at the French Foreign Office, where arrangements have been made for an informal ceremony, and the date of the signed and disengaged in the proposed simple delivery of the treaty by the secretary of the conference.

Probably 21 days will be granted to the Austro-Hungarian delegation on the treaty, and it is expected that the conference will take a short vacation while the Bulgarians have it under consideration.

Dr. Renner's cheerful acceptance of the treaty which he had frankly

## Will Paralyze Steel Industry Appeal From President Wilson

Washington.—Regardless of request of President Wilson that they take no action, the American industrial conference, representatives of the organized workers in the steel industry called a strike, effective September 22, to compel recognition of the demands of the steel workers' collective bargaining by the United States Steel Corporation.

The executive council of the 24 unions represented among the workers made known their decision in statement to the press, and requested the President, by telegraph, for a "more definite statement" as to the possibilities of arranging a conference with steel corporations to meet the demands of the steel workers, from the President asking that they withhold action until after the industrial conference.

One of the most serious elements in the complicated outlook was the possibility of sympathetic strikes by labor unions, which have declared a general strike in support of the miners' union. Like the patriarch's organization, most of these unions are affiliated with the American Federation of Labor. The crowd early began to disperse as the cavalrymen were sent to disperse the mob and moved in and out of the square. Shots were fired and an unidentified man was killed. A woman was wounded in the arm, a 12-year-old boy, a policeman was to be beaten, he was removed to a hospital, and three cavalrymen were hit over the heads by other missiles and also were given hospital treatment. After midnight, when the miners arrived the streets were finally cleared.

The South Boston district was so turbulent that it was considered one of the worst dangers, so a large force of troops was thrown out. The miners' march to the mine entrance of the Peninsula section, but late at night conditions were so menacing that a machine gun crew was rushed over to aid them. The miners were to be the resistance of the angry crowd, and the efforts of the guardsmen to preserve some sort of order that guns were leveled and the machine gun was put in position. All sorts of missiles were flying around. A shot of stone so endangered the soldiers that machine gun crews were ordered to fire. One man was killed and several wounded.

**Hurricane Hits Florida**  
Winnipeg.—Although no official statement will be made until the end of the week, it is believed that an authority source that wage increases to the extent of \$400,000 must be made by the Winnipeg Electric Railway, according to a decision reached at the meeting of the board, which recently sat to investigate the miners' grievances. The increases make retroactive, it is stated. This increase will affect carmen, conductors, motormen, trackmen, inspectors and receivers.

## Control Cold Storage

Washington.—The first of the highest cost of living law proposed by the president has taken form in the Senate agriculture committee, which generally reported a bill to control cold storage. All containers of food when placed in storage would be stamped "cold storage food" and the stamp upon which would enter and left storage would be stamped.

**Against Trade With Germany**  
Melbourne.—Premier Hughes, addressing the nation to announce that the offensive was being pressed successfully along the Siberian front. The enemy is being driven back everywhere with severe losses, the announcement says, and has been compelled to abandon prisoners and important booty.

Although the property damage was enormous, no fatalities were reported.

The steamer Grampus, with a crew of 150 men, was sunk in the West harbor, and the two-masted schooner U. V. Drew, bound from Tampa to Cuba, with a crew of seven men, was reported to be adrift. The crew were picked up by the rescue boat.

In the little town of Gouds, near Miami, eight buildings were totally destroyed and 13 partially demolished.

Although the property damage was enormous, no fatalities were reported.

The steamer Grampus, with a crew of 150 men, was sunk in the West harbor, and the two-masted schooner U. V. Drew, bound from Tampa to Cuba, with a crew of seven men, was reported to be adrift. The crew were picked up by the rescue boat.

Dominion Express Money Orders are on sale in five thousand offices throughout Canada.

### Wants Prince

On Tiger Hunt

A strange letter reached the Prince of Wales not very long since from a small Indian village at the foot of the Himalayas. It was written on a piece of dried tiger skin, apparently with a pointed stick and some red dye. The letter said that his father had lost the honor of securing the late King Edward when he went tiger shooting in the jungle, and expressed the hope that should the Prince ever feel inclined to attempt the ascent of the Himalayas, he would come to him or him by adopting him as one of the guides for that somewhat hazardous adventure.

### "Cold in the Head"

An acute attack of Nasal Catarrh, Persons who have "cold in the head" will find that the use of HALL'S CATARRHIC PILLS will quickly remove the System, cleanse the Blood and render them healthy again. Chronic Catarrh or Acute Catarrh may lead to Chronic Catarrh. HALL'S CATARRHIC PILLS are taken internally and act through the Blood on the Internal Organs. All Druggists Inc. Testimonials free. HALL'S CATARRHIC MEDICINE will not cure.

F. J. Cheney & Co., Toledo, Ohio.

### Ex-Kaiser Not Wealthy

Total Amount of Cash When He Flled to Holland Was \$50,000 Marks

Berlin.—The total amount of cash former Emperor William had on his person when he fled to Holland was \$50,000 marks. This was the sum of a statement made by Dr. Albert Sudkum, Prussian minister of finance.

Dr. Sudkum also declared that a careful investigation had failed to prove that the former German imperial family had capital of \$100,000,000 abroad. The minister added that he expected shortly to announce the proposed plan of settlement of the Hohenzollern family's financial affairs. — This would not be dictated "by" wealth or malice" and would not call forth unjustified criticism.

Don't be ashamed to begin life with a small show; you may eventually be the owner of a three-ring circus.

### Indian Farms Do Well

Saskatchewan Indians will reap a fair crop as the result of the extensive winter pasture scheme on which they started a year ago, and the slimming of the war. In 1918 much raw prairie was plowed in readiness for seedling this year. Although drought has proved a blight on the crops, the Indians have been given a precious little time to rest after a year of hard labor. Only marine engineers, who know how the trials of a well-built ship may be ruined by a trifling flaw in her hull, can appreciate the difficulty of applying the results of this series of successful trials from the fitting-out basin. They form a magnificent tribute to the soundness of Indian engineering. Nothing but the best design, the most accurate construction, and the most skillful assembling could have produced such a triumph.

### KEEP CHILDREN WELL DURING HOT WEATHER

Every mother knows how fast the hot summer months are to small children. Cholera, infantum, diarrhea, dysentery, cold and stomach trouble are the chief causes of death after a precious little life is lost after only a few hours illness.

The piers at Fort Garry, Manitoba, the crop has turned out well, and an average of fifteen bushels of wheat an acre will reward the men for their efforts.

### Other Tablets Not

Aspirin At All

Only Tablets Marked With "Bayer Cross" Are Aspirin

If You Don't See the "Bayer Cross" on the Label You're Not Getting Aspirin — Only Acid Imitation

Genuine "Bayer Tablets of Aspirin" are now made in Canada by a Canadian firm. Aspirin is a registered trade name, whatever, all rights being purchased from the United States Government. Dr. J. D. Kehl, of the Bayer Company, sold were sold as Aspirin in pill boxes and various other containers. The "Bayer Cross" is the guarantee that you are getting genuine Aspirin, sold profitably by Dr. Headache, Neuralgia, Rheumatism, and for Pain generally.

Hasty tin boxes of 12-tablets—  
larger sized "Bayer" packages can be had at drug stores.

Trade mark registered  
in Canada, by Bayer Manufacture of Salicylic acid.

Business women should never marry men who are unable to cook and sew on buttons.

Corns and warts disappear when treated with Holloway's Corn Cure without leaving a scar.

Women who talk most usually mean what they don't say.

Minard's Liniment for sale every where.

German Plaques All Ready

The report comes from Great Britain that the Huns have 43,000 planes ready to dump on the markets of the world, and at much cheaper prices than those existing now. This is a sharp reminder that the Hun is a nation of war, and the world need not be afraid of them if it is necessary for the British Empire to get ahead of them. The Hun "have got" to work and work hard in order to meet the British in battle, and when the other nations will have to work a little bit harder than they. These planes are playing a tune which Canada should listen to—Kingston Standard.

Arguments were subsequently addressed to the court of criminal appeal for a reduction of sentence, but without effect.

British Forces Evacuating Archangel

London.—Evacuation of Archangel by the British expeditionary forces is in progress, it was officially announced here.

### Triumphs Of British Shipbuilding

#### Remarkable Results Achieved in Spite of the Stress of War

It is known to everybody that the construction of new British naval vessels was carried on through with unusual speed. This was, but the world is only now becoming acquainted with the remarkable results which were achieved in spite of the stress of war conditions. In peace time it is the custom of the Admiralty also to accept vessels, except after exhaustive preliminary trials, naturally, also, it is customary for the shipbuilders to take minutes of every detail of the origins and construction of the vessel. This, however, reached as high a stage of efficiency that the Admiralty was able to dispense with these trials. High-powered vessels went to sea after a basic trial at steamer speed. U.S. Reservists, for example, steamed straight out into the North Sea before daylight, reached her full power within one hour, and ran without a stop to her destination.

For the first time, shipwrights and engineers went to sea fully commissioned and took the necessary trials on their way to the appointed naval base. One particular destroyer raised her full power within seven minutes of starting the pier. The first voyage.

Only marine engineers, who know how the trials of a well-built ship may be ruined by a trifling flaw in her hull, can appreciate the difficulty of applying the results of this series of successful trials from the fitting-out basin. They form a magnificent tribute to the soundness of Indian engineering. Nothing but the best design, the most accurate construction, and the most skillful assembling could have produced such a triumph.

### Hollanders Find Kaiser Expensive

#### Has Already Cost Our Country A Total Of 20,000

Amsterdam.—Under the headline "Kaiser Extends War" appeared on the Amsterdam Handelsblad a story of which has been received here, says nineteen policemen, whose salaries total 75 guilders daily have been given to the former Emperor. The cost of the war, since November, The Kaiser has already cost our country a total of 20,000 guilders," says the newspaper, "true an expensive foreigner."

It is understood here that the Kaiser has had no change in his salary since his former government gave him 10,000 guilders.

It is reported that he expects to bring to Holland his own maid, from Germany, to assist him in his newly purchased home, the house of General Pittalura.

It gives the consent of the German government.

FRIDAY, SEPTEMBER 19, 1919

Monday, October 13th has been fixed as national Thanksgiving Day this year.

Calgary is to have a team in the Western Canada Baseball League next year.

It is refreshing to us westerners who are perfume sweetening our breakfast coffee with sorgum molasses to read in the news dispatches the following from the Secretary of the Board of Commerce: "I am assured sugar situation is now back to normal in Canada." Wonder what we would use for sweetening if the sugar situation hadn't got back to normal.

### In Police Court

On Monday, September 15th Joseph M. Gates appeared before N. G. Holmes, Police Magistrate at Claresholm Police Barracks, on two charges of uttering forged cheques.

The offences were committed here last May when worthless cheques were passed bearing the forged signature of a well known local farmer.

Warrants were issued for arrest on that date and a description of accused sent through the province.

On September 14th Gates was arrested by Const. Margerison of the Royal Canadian Mounted Police, A. P. P. Coleman, who brought him here.

After hearing the evidence His Worship committed accused to Lethbridge goal to await trial on both charges.

Corpl. Vice of A. P. P. at Claresholm appeared for the prosecution.

### Notice to My Patrons

Starting at an early date, I have arranged to show at the Rex Theater, each Monday and Tuesday, a series of Special Productions. Your co-operation in patronizing me during the same, the high class features will be appreciated, owing to the excessive cost I am compelled to pay for same. Absolutely no raise in admission.—J. L. Edlund.

CLARA KIMBALL YOUNG  
"THE REASON WHY"

Rex Theater Sept. 26 and 27

### TOWNS ACT

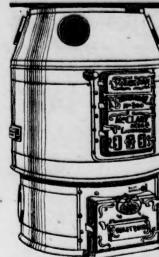

Section 79, Subsection 2.—"The name of the wife, husband, son or daughter, of each person assessed shall only be entered on the voters' list on application of the person who claims to have his or her name so placed on the voters' list."

See that your name, or the name of your wife, husband, son or daughter, who live in the hall, aged 21 years and a bona fide resident of the town, is entered on the list which is now posted up in the office of the Secretary-Treasurer.

For Sale—Splendid well located quarter section in Kootenay Valley, B. C. Range adjoining. Value \$2500. Clear title. Will accept offers for horses, mares, geldings, ponies, colts, geldings, horses, plowing or threshing outfit in good shape—either gas or steam. Owner, P. O. Box 32, Lacome, Alberta.

For Sale—40 tons good screened nut coal, \$5.00 per ton—Alberta Pacific Grain Co., Ltd., Woodhouse, J. A. Laishaw, Agent.

If you want a loan on your farm see Fraser & Peck.

### McClary's Sunshine

IT is after a furnace is installed that you know whether your investment in COMFORT was wisely made or not. Don't take a chance on it.

You can be sure of it under the McClary's guarantee. McClary's engineers will plan your heating system without charge. They will guarantee that the Sunshine furnace, installed according to those plans, will heat your house comfortably.

Take advantage of this service.  
Have a comfortable, well-heated home.

Full information about the Sunshine Furnace will be sent free to anyone address upon request to our nearest branch office. Branches at Toronto, London, Montreal, Winnipeg, St. John, Calgary, Vancouver and Hamilton.

### To Solve Canada's Employment Problem

EVERYONE in Canada should understand just what the Government is doing to solve the unemployment problems that may arise through the demobilization of our fighting forces.

#### (1) Employment Offices.

So that everyone—male or female, soldier or civilian—can get quickly such jobs as are available the Government is co-operating with the Provinces in establishing a chain of Public Employment Offices. Employers are being urged to make use of these offices to secure any help they need. Farmers, for example, who need hired men should apply to the nearest office. There will be Public Employment Office in every town of 10,000... people—and wherever the need is one exists. There will be 60 different offices in all—one-half are already in operation.

#### (2) Employment Opportunities.

The war held up much work that will now be carried on at once. Public works, shipbuilding, roadbuilding, railway work—construction of bridges, improvement of roadbed, making of new equipment—these will provide new opportunities for employment. In addition, the Government has sent a Trade Mission overseas to secure for Canada a share in the business of providing materials and products required for reconstruction work in Europe. It has also set aside the large sum of

\$25,000,000 to be loaned through the Provinces to encourage the building of workers' houses. This will mean much new work in the spring.

#### (3) Land and Loans for Soldiers.

To help soldiers become farmers the Government has developed a programme that includes the providing of land, the granting of loans, and the training and supervision of those inexperienced in farming. At present, the soldier is granted, free, in addition to his ordinary homestead right, one quarter-section of Dominion lands. He also receives a loan up to the maximum of \$2,500.

These original plans are now being broadened. If Parliament passes the new proposals during this session, the Soldier Settlement Board will be able to buy suitable land and re-sell it to the soldier at cost.

Land up to the value of \$5,000 may be bought by this plan—the money to be repaid in 20 years. The low interest rate of 5 per cent. will be charged. These new proposals will also permit the Soldier Settlement Board to loan the soldier-farmer up to \$2,500 for purchasing equipment, etc., in addition to \$5,000 loan on his farm.

## Claresholm Local News

D. B. Vanhorn left last week for a motor trip to Montana.

Wallie Davis and Ed McLeod motored to Calgary Thursday.

Mrs. E. A. Strange is reported as greatly improved in health.

Mrs. W. Porter returned from her trip to Manitoba this week.

Mrs. Sam Price is spending a few weeks with friends at Craigmyle.

Born, to Mr. and Mrs. O. Williams, in Friday, September 18, a daughter.

The 44 Ranch shipped a train load of cattle to P. Burns last Wednesday.

Frank Wall, wife and family are leaving next week for a visit to the old country.

Mrs. Griffin who left here for England last spring, was again in town on Thursday.

T. C. Milnes and Chas. Noble left on Wednesday for a trip to the Peace River country.

Miss Edith Morland of Nanton was for a few days visiting with Mrs. J. J. Harrison.

Mr. Brock left for Duluth on Tuesday, being called to see his brother who is seriously ill.

Miss Leoone has accepted a position with the Canadian Bank of Commerce at Calgary.

Coming soon to the Rex, Charlie Chaplin in "Chase Me Charlie," a five reel comedy feature.

Mayor Lewis was honored with an introduction to the Prince of Wales last Saturday at High River.

Dr. H. Meeklenburg, eye-sight specialist, will be at the Queen's Hotel, Claresholm, on Tuesday, September 30th.

Mr. and Mrs. Peacock and daughter, Mrs. Carnegie, were visiting with Mr. and Mrs. Chas. Stewart fast Sunday.

Thus Gay left on Saturday last for Toronto, called there by a telegram announcing the death of his brother.

Mrs. H. W. Lowle, of the telephone staff, is spending a week's holidays at Banff. Her mother accompanied her.

Jack Rees, wife and family left on Thursday for a visit to their old home in South Wales. They expect to return next spring.

The town this week, making a decided improvement in the appearance of the railway buildings.

Principal Williams of the Public School has been appointed inspector of schools for the Cardston district and will be leaving here next month.

Mrs. Young and her three boys who have been visiting Mr. and Mrs. W. Miller for several days, left on Wednesday for Edmonton.

Arthur Grobe left on Monday for Idar where he intends taking some theological studies with a view to entering the Nazarene ministry.

T. N. Walker, one of Claresholm's old-timers, spent a few days in town this week. Mr. Walker and family are now residing at Great Falls, Montana.

Go to the Rex and see the funniest man in earthen Friday night. Satire, this week, stars Asa Buckle in "His Wedding Night." Also "The Hostage," a fine act Super Special.

The plays at the Rex theater are the best plays produced, and something different—you get a Paramount, a Metro, a First National. Don't miss any of them.

Sylvia wanted to see "Life"—did she succeed? Her many adventures will amuse and charm you in "Sylvia on a Spree," at the Rex theater with fascinating Emmy Wehlen as the star.

Charles Harrison motored to Calgary to attend the returned soldiers' banquet, accompanied by their mother Mrs. J. A. Harrison. They report having a splendid time and good roads.

If you saw "Hitting the High Spots" at the Rex, be sure to see one still better, "Sylvia on a Spree." It is guaranteed to be full of frolic and pep, and one of the best comedy dramas yet produced by the Metro Film Corporation.

W. E. Atkinson is disposing of his horses by public auction on Saturday, September 27th, at Claresholm. These are good horses, in good condition, and the bids are very liberal! Albert E. Strange, the popular auctioneer, will officiate.

The Claresholm Band under the direction of L. G. deForest went to High River to play before the Prince of Wales. It is reported that His Royal Highness was greatly pleased with the excellent music and shook hands with the bandmaster.

If you want Manager Ellwood of the Rex to continue to bring the highest class films to Claresholm, show that you appreciate such service by attending next week's matinees and evenings, when the attraction will be Emmy Wehlen in "Sylvia on a Spree."

Quite a number of Claresholm citizens motored to High River last Saturday. As it is probably the last time that royalty will be in this city, it is recommended before a democratic country, the trip was perhaps worth while. Except for that it was a waste of good gasoline.

After securing and starting operations on a large farm joining the town of Stavely, the Rev. T. C. Milnes left on the late train Wednesday night for his farm land, where he will join his wife and daughters. Mr. Butcher plans to take his wife back to California, in the hope that she may regain the health which she enjoyed sometime formerly.

After public meetings were held in the council chamber on Friday evening to consider, as a means of raising funds for the baseball and band treasuries, the proposition of Capt. Metal to let the stadium for the annual exhibition and baseball games at Claremont on September 30, weather permitting. After due consideration, it was moved and carried with unanimous vote that the proposition of Capt. Metal be accepted, provided that twenty will sign up to take the passenger flights. There would not be a doubt of obtaining the twenty, as the weather is practically the only element of uncertainty.

## Lutheran Services

Divine worship, Sunday, September 21st, in Claresholm, 11 a.m., and in the Clear Lake school 1 p.m. Dr. W. H. Schaeffer, Lenten will meet in the Pine Dell school, 8 p.m. A hearty welcome is extended to all.—H. G. Flatland, Pastor.

## Good Roads And Education

In a recent made to the Minister of Education for Saskatchewan, Mr. D. S. McCannell, chief attendant officer to the province, to whom is entrusted the administration of the Compulsory School Attendance Act, says, "In my opinion, the best guarantee for the success of children from rural schools: 'Impassable roads, but this is a condition which will improve as the province grows older.'

In previous issues, the writer of this column has dwelt upon the importance and necessity of good roads in these western provinces, and also upon the absolute necessity that boys and girls should be given the best possible education and kept in school as long as possible. In this article we hope to make clear the hearing which the provision of good roads has upon the successful carrying out of a better school policy and a higher average attendance at school.

There are four main groups under which every problem treated as peculiar to our schools may be considered:

Frist: Greater production or more intensive farming, which is primarily a question of more population on the land.

Second: Proper educational facilities for the boys and girls, or provision for a high school education without forcing parents to leave us school at the period of their greatest production in order to give their children an even start with the town boy and girl in educational equipment.

Third: Proper social and amusement facilities for the entire family as a unit, many more of whom are associated with life on the farm.

Fourth: The development of a community spirit, hearty co-operation in a social and economic way, as the best means for guaranteeing the prosperity and contentment of all.

Thus, roughly, do we group the various topics which concern the relations of the people one with another, as distinguished from those which affect them individually, that concern the individual farmer, such as better crops and improved livestock.

Now analyse this proposition: The educational factor is the first, and one final answer to them, the one thing that will lay the foundation that will make them possible, and leaves but details in connection with each to be arranged, but without which success cannot be achieved, is a passable system of all-the-year-round roads.

In some of our more thickly populated districts in the West, a considerable school could make improvements over several small district schools. It would be a better school in every way, and provision for high school training would be

possible. But without good roads for the conveyance of pupils the consolidated school and rural high school is impracticable, and many of such schools established in the United States have been abandoned solely because of the impossibility of transporting the school children over the existing roads.

But, it is said, it will take money to build roads. Certainly it will, and lots of it. But the city dweller can not live in a house or moreover sleep with electric lights, hot water and other modern conveniences for the same outlay that he can live in a cave. He pays for those conveniences and he finds it that they cost him more for them. So with good roads, though will more pay for themselves.

Here in Western Canada we are somewhat inclined to look upon the Province of Quebec as the model, and the roads there are not fully informed of what is transpiring there. Within the past fifteen years Quebec has been forging ahead in general agriculture, dairying and livestock raising faster than any state in some respects more rapidly and than some states in these Western Provinces. Industrially and commercially it is going ahead by leaps and bounds, and a complete transformation is taking place educationally.

What is this for the development in Quebec? Everyone who has studied it but one answer: Good roads. The Province of Quebec has roads, less expensive to the producer, as far as his goods and it means to continue until every farmer can get his goods to market, his children to school, and his family to church, without a breakdown or being mired down in mud. The cost of a good road is \$20,000,000 on roads. Some people who think the French-Canadian habitat is parsimonious and unprogressive, may give a thought to the fact that the necessary authorisation that \$20,000,000 has been spent, and Quebec now leads the Dominion in good roads. Two or three months ago the government asked for authority to spend \$20,000,000 on roads. Some people who think the French-Canadian habitat is parsimonious and unprogressive, may give a thought to the fact that the necessary authorisation that \$20,000,000 has been spent, and Quebec now leads the Dominion in good roads.

The result of this new road system for a new market to keep on spending millions on good roads, the resulting being that a majority of Government supported were returned by acclamation.

Note—Further consideration of this important subject will be reserved for next week.)

## LEMONS MAKE SKIN WHITE, SOFT, CLEAR

Make This Beauty Lotion for a Few Cents and See for Yourself

What girl or woman hasn't tried lemon juice to remove complexion blemishes, to whiten the skin and to remove freckles? Is it not the hidden beauty? But lemon juice is acid, therefore irritating, and when applied to the skin in this way, it strips through a fine cloth the juice of two fresh lemons into a small jar. Then add a few drops of orchard white, then shake well, and have a whole quart part of skin lotion. This will cost about 25¢, and cost one usually pays for a small jar of ordinary cold cream. Be sure to strain the juice before pouring it into the bottle, then this lotion will remain pure and fresh for months. This application to the skin arms and hands should help to bleach, clear, smoothen and beautify.

Any drugist will supply three cents of orchard white at very little cost and the grocer has the lemons.

Liman Von Sanders in Germany Berlin, Germany, Dr. Liman von Sanders, a treated German from Malta, whence he was conveyed in a British ship to Venice. In a statement to a newspaper representative, he denied any responsibility for the Minas Liniment Burns Cure, Etc.

Calculus Out of Prison

Paris—Joseph Calliau, the former premier, who has been in prison for more than a year, charged with having had treasonable dealings with the enemy, will be permitted to enter the country on Sept. 10. The French court for Calliau remitted recently that he be removed from prison on the ground that his health had been so weakened as to cause anxiety.

Precious, pale, restless, and sickly children owe their condition to worms. Mother Graves' Worm Exterminator will relieve them and restore health.

British Airships Plan

Let Private Firms Have Advantages With Rigid Airship

London.—The government has decided to retain only two airships of the rigid type and dispose of the others. A working committee has been appointed to establish a commercial airship service. This announcement was made by Air Commissioner Setley at a conference of representatives of aeronautical and engineering firms.

It is added that the decision was based upon the necessity of cutting down expenses and in the belief that the best results in the future were likely to be attained by the encouragement of private enterprise.

It is not the circle that strikes the longest that always keeps the best time.

Even a hen can scratch up trouble between neighbors.

## Britain Needs More Modern Navy

United Kingdom And Dominions Must Furnish The Money

Vancouver, N.B.—A special cable from Sydney, N.S.W., to the Vancouver World says:

"Unless the United Kingdom and the Dominions furnish the money funds in their pockets it will not be possible to retain for the empire that sea supremacy which every citizen of the empire knows is his heart is vital to his existence," said Sir Edward Grey in a formal speech delivered to a large and influential audience here yesterday.

"Lord Jellicoe went on to say that after reading the cables of a letter from the London Times, Lord Fisher, who is of the opinion

that underlying Lord Fisher's demand for the scrapping of the present British navy was the idea that

bigger and more modern navy should be built."

Men listen when money talks. Probably that is why we sometimes hear of bush money.

There is no radical cure for laziness, but starvation will come, the nearest to it.

Milieu Worm Powders work so effectively on the traces of worms can be found. The pests are massacred in the stomach and pass away harmlessly. They make an entire and clean sweep of the intestines, and nothing can stand against them. These powders are in great demand throughout the world.

Some things are just automatically funny; for instance, a frog, duck and a man in a bathing suit.

**Alberta Coal Discovery**

It Is Possible That Anthracite Coal Also Exists In Quantities

Twelve or more seams of high-grade bituminous coal, all of great thickness, are believed to exist at the junction of the Similk and Muskrat rivers, located north of the Canadian Northern Railway, west of Edmonton. O. S. Finnie, inspecting engineer of the mineral lands division of the department of mines, has just returned following a month of close exploration work on behalf of the department. In addition to the discovery of new seams, investigation proves that coal exists in great seams, and investigation proves that not only is the quantity large but the quality is also good.

"He made violent lobs to you didn't he?" asked the summer girl, pictured in Life.

"Dear me no! I only asked you to marry him."

Would Aid France

Berlin.—Four hundred thousand German workers have volunteered for work of restoration in northern France, according to the Vorswerts, Minas Liniment Burns Cure, Etc.

### DEATH DEALING HURRICANE IN TEXAS

A terrible gulf hurricane struck the city of Corpus Christi, Texas, early last Sunday morning, killing many people and doing millions of dollars damage to property.

Corpus Christi, Sept. 16th.—With the death list mounting into hundreds, and the property loss now placed in the neighborhood of \$10,000,000, the effects of Corpus Christi storm, 36 hours after the passing of the storm, seemingly were just coming to the full realization of the disaster which it had already passed. Every industry in the city is prostrated and business is at a standstill; communication of all kinds demoralized, and food and housing problems acute.

### Government Refuses to Consider Soldiers' Gratuity

Ottawa, Sept. 16th.—The proposed gratuity to be given to returned soldiers, not a gratuity of \$2,000 shall be paid to every man who served at the front, and thus \$1,500 and \$1,000 shall be given to those who served in England and Canada, respectively, will not be considered by the government. Hon. C. J. Doherty, minister of justice, speaking in the House yesterday, stated that the committee, which will be appointed to deal with the soldiers' civil re-establishment bill, will not take up this matter, but recommended that the bill should be introduced regardless of his financial situation; that shall be paid a gratuity, is not in the interests of the country nor of the men themselves.

### The Alberta Egg Laying Contest

The egg laying contest to be held at the Experimental Farm at Lethbridge will do much to stimulate the interest in Alberta as an egg producing province. Already the Experimental Farm and the Department of Agriculture have introduced a number of hens that lay over 20 eggs in a year and there is no reason why more breeders in the province should not do likewise. The contest will not only show that Alberta can produce high quality eggs, but it will also bring out those that are breeding for high egg production, and will give them a standing in the business which nothing else can do.

As egg laying contests are being conducted by the Experimental Farms in practically every province in the Dominion, a competition will be sure to result and will be closely watched by all interested in poultry production. It is therefore, up to the breeders of the province to prove that their breed is being held at Lethbridge, which starts November 1st, has as entrants, some of the best breeders in the province. We want to put Alberta on the map as an egg producing province. Owing to the lateness in advertising, entries will be received up to the last of September, providing the contest is not over.

Rules and regulations have been well published, but copy may be had on application to the Dominion Poultry Husbandman Central Experimental Farm, Ottawa.

The entrance fee of \$5.00 for a pen of ten birds should be sent at the time of application, and all cheques and money orders should be made payable to W. A. Fraser, Accountant.
